CODESYS *go!*

CODESYS Feature Briefing, October 2024

Kevin Ketterle, Head of Web-based Platforms
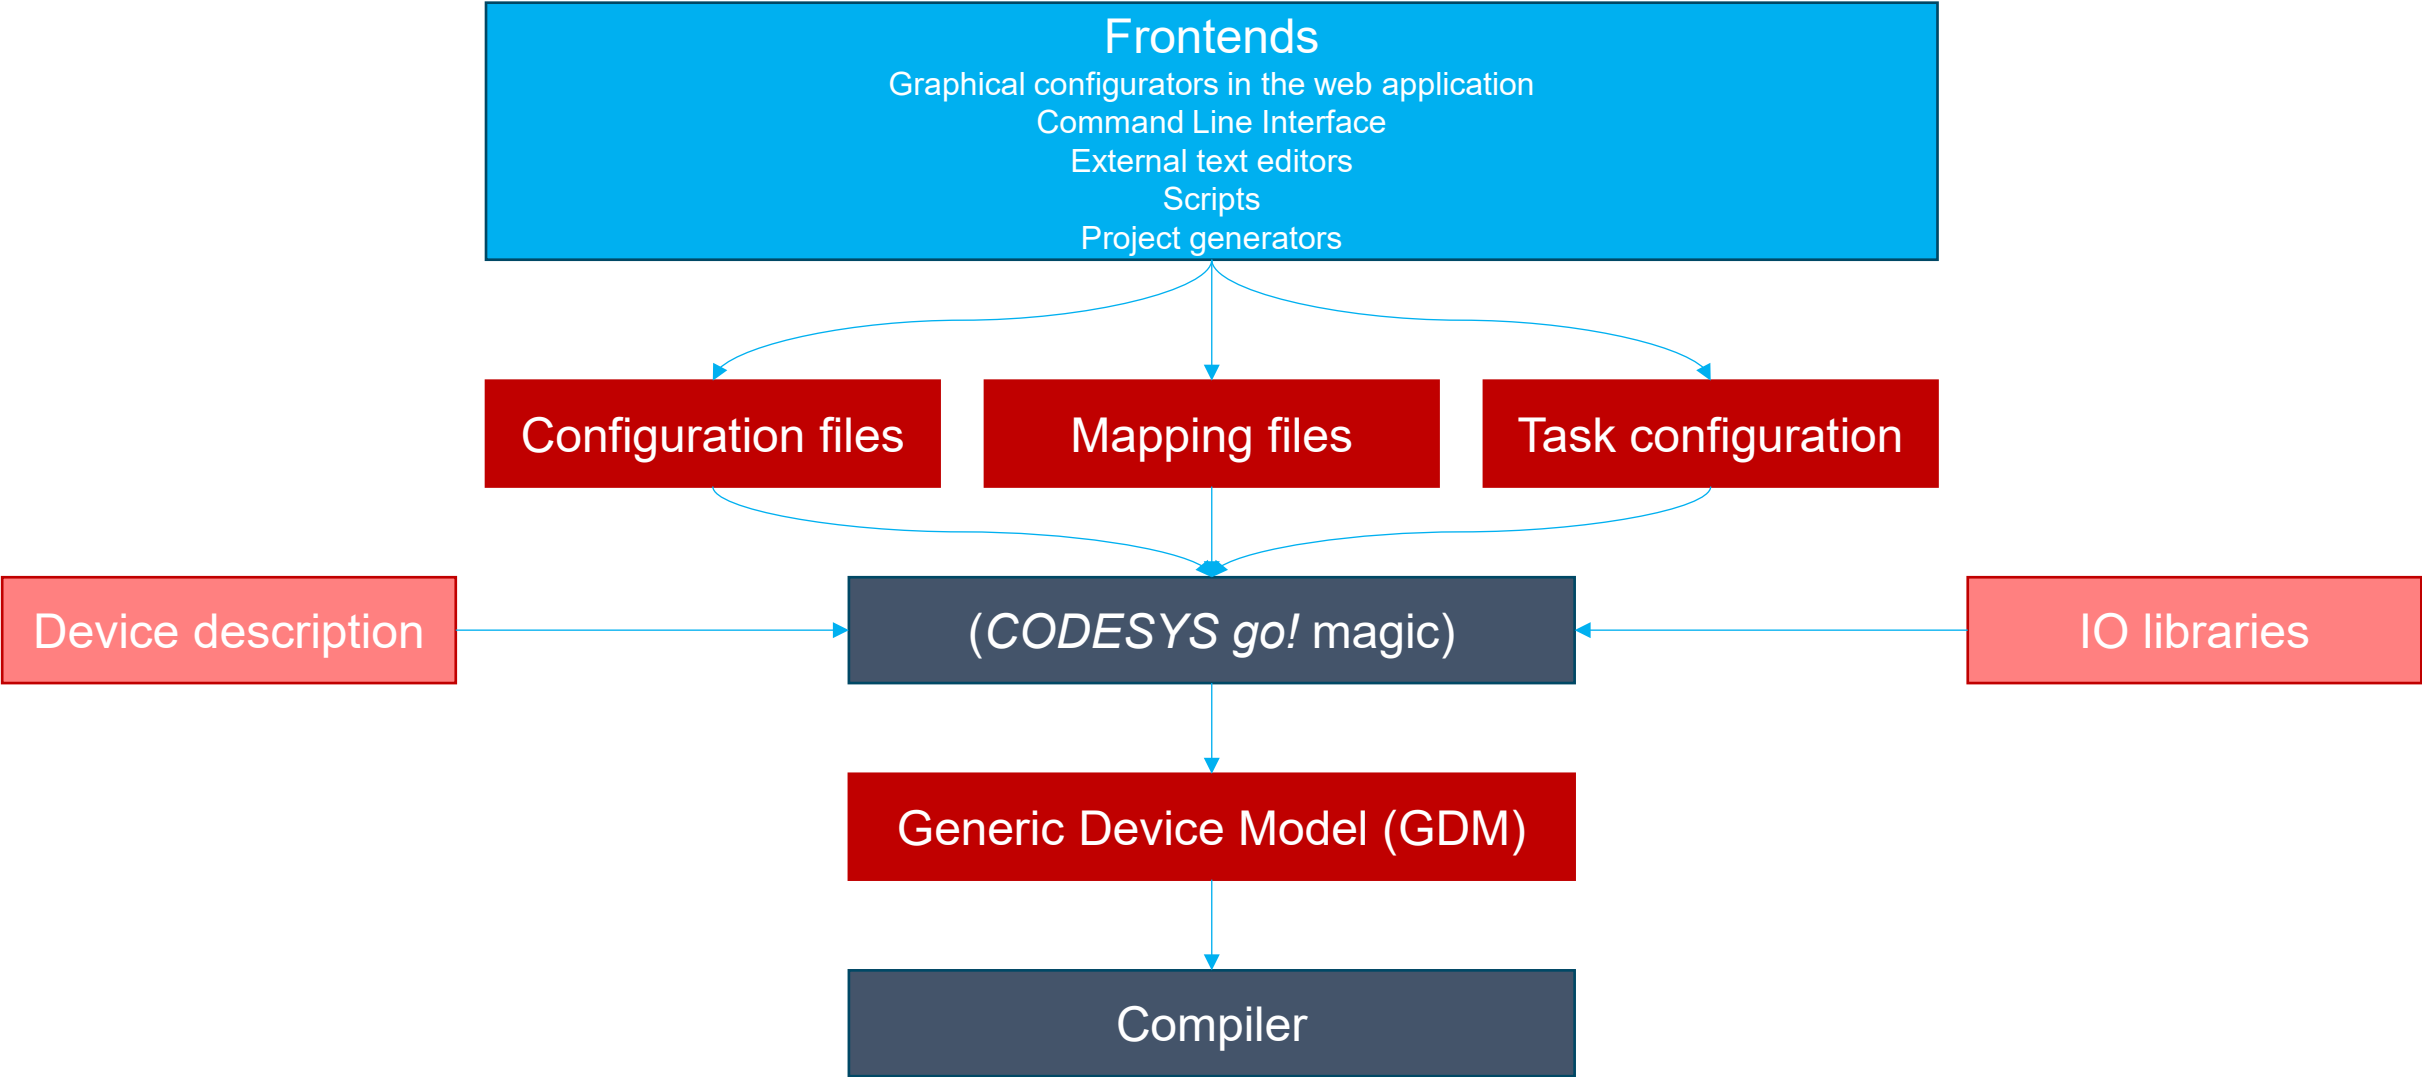

1   **Device configuration**

**2**   **Library management**

3   **Web application**

Frontends
Graphical configurators in the web application
Command Line Interface
External text editors
Scripts
Project generators

Configuration files

Mapping files

Task configuration

Device description

(*CODESYS go!* magic)

IO libraries

Generic Device Model (GDM)

Compiler

- **There are already countless CODESYS V3 libraries in the field.**

- **For this reason, we will also support these libraries in *CODESYS go!***

- **Even more: We can generate compiled libraries from *CODESYS go!* that can be used in CODESYS V3.**

- **Live demo**

- **Live demo: Editor host**
- **Live demo: Preference editor**
